Open, Honest, Sex Friendly

VISION

A world where women and girls claim and enjoy their sexual and reproductive health and rights, including their right to safe and legal abortion.

IMPACT

Increase in number of safe and legal abortions in areas where services or means are available

Young people have access to safe & legal abortion services or medical interventions where they are available

Policy development and implementation which increases the availability of abortion services

Accountability ceiling

OUTCOME

Information: Young people have increased knowledge of SRHR, including how to access safe abortion services

Stigma: Increased public acceptance and discussion of need for safe and legal abortion

Campaigning/ Engagement: Youth advocates jointly campaign for increased access to safe & legal abortion with CSOs at national, regional and global level

Advocacy: Advocacy networks & youth advocates are actively influencing law & policy makers for full implementation of current laws and expanding grounds for exemptions

Young people access information relating to SRHR, including safe abortion via comprehensive and easily accessible dissemination channels

Alternative discourse on abortion and need for safe abortion is made available to counter stigma and misinformation

Young people are empowered to influence and advocate for safe abortion

Women's groups, CSOs and human rights organisations are capacitated to advocate on increasing access to safe abortion and recognise access to safe abortion as a human right
