1)activity: we don't delete the comment, we do write appropriate answer on this.

answer: Hello, at first, this is not illegal by law, in our country, and it is important for to understand that every human being has a right to fall in love and have a relationship they think they deserve, unless It does not harm anyone. LOVE is not abnormal behavior.

2) activity with more strict policy: hide the comment. WHY? because negative responses and feedback affects the community. and trans people feelings, they must have a safe space for their talks and articles, and also, more negative feedback influences other people to write negative comment also. We don't delete, because we don't want to upset comment author more, but we hide it for trans people, to create positive environment under our article.

"Discover it for yourself - sex toys": a discussion

Problem: One of the female users takes part in the discussion and then some male users start asking her to check her inbox and send her inappropriate messages.

A random post on the platform

Problem: A female user is sharing screenshots of messages she received after leaving a comment on our posts. The screenshots contain attempts by random men to chat.

How dare you teach our children to have sex? We were brought up in a different culture, real Georgian culture. And we were able to grew as normal Georgians, we did not need anything like this. Shame on you!

14:21:33 From Maja Nenadovic to Everyone:

hello

14:22:52 From Maja Nenadovic to Everyone:

We love Georgian culture too - and we are grateful to sex for having allowed Georgian culture to continue all these years After all, none of us would be here today, without sex. So, with sex education, we seek to promote Georgian culture for many centuries to come!

Thanks for your comment. We think that sexuality education is important for young people to get a lot of information about reproductive health. This is important for the health of young people, because many young people today do not have the minimum education about sexually transmitted diseases.

We are teaching youth about their bodies and their rights, so that they do not experience dangers, risks and threats from harassment, sexually transmitted diseases. We believe in safety and protection of our youth!

14:43:15 From Sandro Gviniashvili to Everyone:

We don't teach them anything bad, we just give them information about some Issues. Have a nice day

14:43:41 From Nukri Tanadgoma to Everyone:

Thanks for your comment, we appreciate your opinion. We want to share more information about STIs and security in our community. So, we think that this is not propaganda, this isa useful information for our young people.
